# AUDI09 troubleshooting

Sorry, but there have been found some troubles engaged with the PCB date indicated on the PCB.

If you have a problem with the screen display. Speaking in detail, it can't display the image, then you have to check out the date on the PCB.

To Check Out the PCB date on the PCB.

1) First of all, Cut the rubber wrapped on the PCB.

2) And then check the date on the PCB.

   A. If it's been written on *2009.04.28*, installation has to be done *behind the LCD*.

   B. If it's been written on *2010.04.21*, installation has to be done *behind the command* (DVD Unit).

   C. If you are not satisfied with this solution, please ask your provider for replacement.

   * We apologize from the bottom of our hearts for your inconvenience.
